

FATF Public Statement - 27 February 2015

Paris, 27 February 2015 - The Financial Action Task Force (FATF) is the global standard setting body for anti-money laundering and combating the financing of terrorism (AML/CFT). In order to protect the international financial system from money laundering and financing of terrorism (ML/FT) risks and to encourage greater compliance with the AML/CFT standards, the FATF identified jurisdictions that have strategic deficiencies and works with them to address those deficiencies that pose a risk to the international financial system.

Jurisdictions subject to a FATF call on its members and other jurisdictions to apply counter-measures to protect the international financial system from the on-going and substantial money laundering and terrorist financing (ML/FT) risks emanating from the jurisdictions.

[Iran](#)

[Democratic People's Republic of Korea \(DPRK\)](#)

Jurisdictions with strategic AML/CFT deficiencies that have not made sufficient progress in addressing the deficiencies or have not committed to an action plan developed with the FATF to address the deficiencies. The FATF calls on its members to consider the risks arising from the deficiencies associated with each jurisdiction, as described below.

[Algeria](#)

[Ecuador](#)

[Myanmar](#)

Iran

The FATF remains particularly and exceptionally concerned about Iran's failure to address the risk of terrorist financing and the serious threat this poses to the integrity of the international financial system, despite Iran's previous engagement with the FATF.

The FATF reaffirms its call on members, and urges all jurisdictions, to advise their financial institutions to give special attention to business relationships and transactions with Iran, including Iranian companies and financial institutions. In addition to enhanced scrutiny, the FATF reaffirms its 25 February 2009 call on its members and urges all jurisdictions to apply effective counter-measures to protect their financial sectors from money laundering and financing of terrorism (ML/FT) risks emanating from Iran. The FATF continues to urge jurisdictions to protect against

correspondent relationships being used to bypass or evade counter-measures and risk mitigation practices, and to take into account ML/FT risks when considering requests by Iranian financial institutions to open branches and subsidiaries in their jurisdiction. Due to the continuing terrorist financing threat emanating from Iran, jurisdictions should consider the steps already taken and possible additional safeguards, or strengthen existing ones.

The FATF urges Iran to immediately and meaningfully address its AML/CFT deficiencies, in particular by criminalising terrorist financing and effectively implementing suspicious transaction reporting requirements. If Iran fails to take concrete steps to continue to improve its CFT regime, the FATF will consider calling on its members and urging all jurisdictions to strengthen counter-measures in June 2015.

Democratic People's Republic of Korea (DPRK)

Since October 2014, the DPRK sent a letter to the FATF indicating its commitment to implementing the action plan developed with the FATF.

However, the FATF remains concerned by the DPRK's failure to address the significant deficiencies in its anti-money laundering and combating the financing of terrorism (AML/CFT) regime and the serious threat this poses to the integrity of the international financial system. The FATF urges the DPRK to immediately and meaningfully address its AML/CFT deficiencies.

The FATF reaffirms its 25 February 2011 call on its members, and urges all jurisdictions, to advise their financial institutions to give special attention to business relationships and transactions with the DPRK, including DPRK companies and financial institutions. In addition to enhanced scrutiny, the FATF further calls on its members, and urges all jurisdictions, to apply effective counter-measures to protect their financial sectors from ML/FT risks emanating from the DPRK. Jurisdictions should also protect against correspondent relationships being used to bypass or evade counter-measures and risk mitigation practices, and take into account ML/FT risks when considering requests by DPRK financial institutions to open branches and subsidiaries in their jurisdiction.

Algeria

Algeria has taken steps towards improving its AML/CFT regime, including by enacting AML/CFT amendments on 15 February 2015 and issuing new customer due diligence guidelines on 8 February 2015. The FATF welcomes this development, but has not assessed the new measures due to their recent nature, and therefore the FATF has not yet determined the extent to which they address any of the following issues: (1) adequately criminalising terrorist financing; (2) establishing and implementing an adequate legal framework for identifying, tracing and freezing terrorist assets and (3) adopting customer due diligence obligations in compliance with the FATF Standards. Algeria also needs to issue corresponding asset freezing regulations. The FATF encourages Algeria to address its remaining deficiencies and continue the process of implementing its action plan.

Ecuador

Ecuador has taken steps towards improving its AML/CFT regime, including by issuing CFT regulations for the freezing of terrorist assets and AML/CFT regulations for the supervision of credit and savings cooperatives. The FATF welcomes these developments. The new asset freezing regulations, due to their recent nature, have yet to be assessed by the FATF to determine the extent to which they establish adequate procedures to identify and freeze terrorist assets. Ecuador also needs to continue enhancing financial sector AML/CFT supervision, in particular the credit and savings cooperatives sector. The FATF encourages Ecuador to address its remaining deficiencies and continue the process of implementing its action plan.

Myanmar

Myanmar has taken steps towards improving its AML/CFT regime. However, despite Myanmar's high-level political commitment to work with the FATF and APG to address its strategic AML/CFT deficiencies, Myanmar has not made sufficient progress in implementing its action plan, and certain strategic AML/CFT deficiencies remain. Myanmar should continue to work on implementing its action plan to address these deficiencies, including by: (1) adequately criminalising terrorist financing; (2) establishing and implementing adequate procedures to identify and freeze terrorist assets; (3) ensuring an operationally independent and effectively functioning financial intelligence unit; and (4) strengthening customer due diligence measures. The FATF encourages Myanmar to address the remaining deficiencies and continue the process of implementing its action plan.
